

## Moretto at K-Show

The exhibition K 2007 that will take place in Düsseldorf from 24th to 31st October, is the most awaited trade fair in the plastics field, able to attract visitors from all over the world, from faraway Australia to the Middle East, from Japan to the United States. The renowned Italian company Moretto, is preparing for its participation at K 2007: the firm from Padova will introduce the last exclusive products planned by its R&D Department. These innovative machines are able to satisfy the clients thanks to the high performances and the quality guaranteed by Moretto. The exhibited innovations are: XD 600 — in the area of dehumidification; DGM 1080 — in gravimetric dosing; and CruiseKontrolle — an exclusive system of plastic granules conveying.
